Examiner:

For: ARGININE-RICH ANTI-VASCULAR ENDOTHELIAL GROWTH FACTOR PEPTIDES
THAT INHIBIT GROWTH AND METASTASIS OF HUMAN TUMOR CELLS BY
BLOCKING ANGIOGENESIS

DECLARATION OF VICTOR DEL RIO

Honorable Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

I, VICTOR DEL RIO, declare that:

1. I have been employed in the Docketing Department of the firm of Staas & Halsey LLP since July 21, 1997, and my title is Manager of Docketing Department.
2. I am directly responsible for docketing all incoming USPTO correspondence, and for making note of such correspondence and the due date for any response due, by the Docketing Department.
3. During the regular course of business, the USPTO mail received at Staas & Halsey LLP is first opened and date-stamped, and separated into a specific USPTO received mail file. The USPTO received mail file is then passed directly to me in the Docketing Department. I check each piece of USPTO mail against our Docketing database by docket number and serial number. Any USPTO correspondence which requires a response is docketed in our Docketing database. Only then is the correspondence passed to the responsible attorney.
4. Attached hereto is a copy of a Daily Docket Report showing all replies which have a USPTO mailing date of January 4, 2002 as additional documentary proof of nonreceipt

of the Notification of Missing Requirements in the subject Application. Further attached is a Docket Report showing the history of the above-identified application.

Clearly, there is no record of receipt of a Notification of Missing Requirements mailed January 4, 2002 on these docket reports. Among my notations of serial numbers and attorney docket numbers for other USPTO mail having a mail date of January 4, 2002, neither the serial number nor the firm docket number of the above-identified application appears on the pages of the Daily Docket Report.

5. I further declare that all statements made herein of my own knowledge are true, and all statements made herein on information and belief are believed to be true; and further that these statements have been made with the knowledge that willful false statements and the like so made punishable by fine or imprisonment, or both, under the Section 1001 of Title 18 of the United States Code, and that such willful false statement may jeopardize the validity of this application and any patent issuing hereon.

Dated: 12-24-03

Victor Del Rio
